

Material Safety Data Sheet

according to Regulation (EC) No 1907/2006 and 1272/2008

SACHTPORE

Print date: 17.12.2013

Approval date: 26.09.2013 Revision: 0

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

· **1.1 Product identifier**

Product Code: SACHTOPORE

Types:

REACH Registration Nr.: 01-2119489379-17-0005

· **1.2 Relevant identified uses of the substance or mixture and uses advised against**

Relevant identified uses:

-

Uses advised against:

-

· **1.3 Details of the supplier of the safety data sheet**

Manufacturer / supplier: Sachtleben Chemie GmbH
Dr.-Rudolf-Sachtleben-Str. 4
D-47198 Duisburg, Germany

Phone: +49 2066 22-0

Fax: +49 2066 22-2000

Mail: info@sachtleben.de

Product Safety: product-safety@sachtleben.com

· **1.4 Emergency telephone number**

+49 30 30686 790 Giftnotruf Berlin (German/English)

+1 800 255 3924 CHEMTEL (U S A)

+358 9 471 977 or +358 9 4711 Poison Information Center
(Finland)

2. POSSIBLE HAZARDS

· **2.1 Classification of the substance or mixture**

The product is not classified hazardous according to the Regulation (EC) No 1272/2008 and the Council Directives 67/548/EEC and 1999/45/EEC, dangerous. Therefore no obligation exists to issue a safety data sheet according to REACH Art. 31.

· **2.2. Label elements**

No special labelling required.

· **2.3 Other hazards**

-

3. COMPOSITION/INFORMATION ON INGREDIENTS

· **3.1 Chemical Characterisation (Substance)**

CAS-Nr.	EINECS-Nr.	Substance identification acc. to EC directive	Danger symbol	Riskphrases
13463-67-7	236-675-5	Titanium dioxide, TiO ₂	-	-

REACH Registration Nr.: 01-2119489379-17-0005 (GERMANY)

· **3.2 Chemical Characterisation (Mixture)**

Description: No mixture
Hazardous components: -

4. FIRST AID MEASURES

· **4.1 Description of first aid measures**

General indications: No hazards which require special first aid measures.
Inhalation: Move to fresh air. Give symptomatic treatment as necessary.
Skin contact: Wash with soap and water.
Eye contact: Wash with water or neutral eyewash solution.
Ingestion: Do not induce vomiting. Give up to 200 ml water. In case of persistent symptoms, consult a doctor.

· **4.2 Most important symptoms and effects, both acute and delayed**

-

· **4.3 Indication of any immediate medical attention and special treatment needed**

-

5. FIREFIGHTING MEASURES

· **5.1 Extinguishing media**

No restrictions

· **5.2 Special hazards arising from the substance or mixture**

The product itself does not burn. Product is inert, inflammable and incombustible.

· **5.3 Advice for firefighters**

-

6. ACCIDENTAL RELEASE MEASURES

· **6.1 Personal precautions, protective equipment and emergency procedures**

Avoid dust formation. Ensure adequate ventilation.

· **6.2 Environmental precautions**

Avoid dust dispersion to the environment. Dust may cause the surroundings to become white. Prevent leakages from entering drains and ditches that lead to natural waterways.

- **6.3 Methods and material for containment and cleaning up**
Use any suitable mechanical means (e.g. vacuum, sweeping), but avoid dusting during clean-up.

- **6.4 Reference to other sections**

7. HANDLING AND STORAGE

- **7.1 Precautions for safe handling**

Avoid dust formation during handling. Provide appropriate exhaust ventilation at machinery and at places where dust can be generated. In case of insufficient ventilation, wear suitable respiratory equipment.

- **7.2 Conditions for safe storage, including any incompatibilities**

Fire Precautions: The product is not flammable
Storage conditions/
packing material: Keep in a dry place.
Incompatible products: No restrictions

- **7.3 Specific end use(s)**

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

- **8.1 Control parameters**

· 8.2 Exposure controls

Engineering measures: None required

Personal Protection Equipment

Industrial hygiene measures: Maintain exposures below applicable exposure limits:

Respiratory protection: A respirator must be used if the dust concentration is likely to exceed the occupational exposure limit. At higher concentrations wear particle filter DIN EN 143 - P2.

Hand protection: Prolonged exposure should be avoided by wearing suitable protective gloves and clothing.

Eye protection: The use of an approved dustproof goggles is recommended if the dust concentration is likely to exceed the occupational exposure limit

Skin protection: TiO₂ pigments are not irritant but as with all fine powders can adsorb moisture and natural oils from the surface of the skin during prolonged exposure. Prolonged exposure should be avoided by wearing suitable protective gloves and clothing.

9. PHYSICAL AND CHEMICAL PROPERTIES

· 9.1 Information on basic physical and chemical properties

Appearance

Physical State: powder

Colour: white

Odour: none

Critical Data

Melting point or range:	> 1,800 °C
Boiling point or range:	not applicable
Flash point:	not flammable
Ignition temperature:	not flammable
Auto-ignition temperature:	not flammable
Oxidizing properties:	none
Explosive properties:	no danger of explosion.
Explosivity or flammability limit in air:	-
Vapour pressure:	not applicable
Density:	approx. 3,9 g/ml
Solubility:	practically insoluble
pH-value:	approx. 7,5
Partition coefficient:	not applicable
Viscosity:	not applicable

· 9.2 Other information

-

10. STABILITY AND REACTIVITY

· 10.1 Reactivity

No special reactivity known.

- **10.2 Chemical stability**
Stable under normal use conditions
 - **10.3 Possibility of hazardous reactions**
No hazardous reactions known.
 - **10.4 Conditions to avoid**
Stable under normal use conditions
 - **10.5 Incompatible materials**
None known.
 - **10.6 Hazardous decomposition products**
No hazardous decomposition products known
-

11. TOXICOLOGICAL INFORMATION

- **11.1 Information on toxicological effects**
 - **Acute toxicity:**
LD₅₀ (rats, oral) > 10,000 mg/kg
Inhalative LC₅₀ /4 hrs (Rat): > 6.8 mg/l
 - **Irritation/corrosion:**
Titanium dioxide is not irritating
 - **Sensitisation:**
No sensitisation known
 - **Chronic Toxicity:**
Non genotoxic.
 - **Further information:**
Health injuries are not known under normal use. Tumours produced in rats on inhalation of very high concentrations of titanium dioxide are believed to be the result of prolonged "lung overload" and are not considered relevant to man.
-

12. ECOLOGICAL INFORMATION

- **12.1 Toxicity**
Aquatic toxicity: Fish LC₀ (Leuciscus idus, 48h): > 1000 mg/l
 - **12.2 Persistence and degradability**
Methods for the determination of biodegradability are not applicable to inorganic substances.
 - **12.3 Bioaccumulative potential**
The product is practically insoluble in water and not biodegradable.
 - **12.4 Mobility in soil**
No data
 - **12.5 Results of PBT and vPvB assessment**
According to Annex XIII of regulation (EC) 1907/2006 a PBT and vPvB assessment shall not be conducted for inorganic substances. Titanium Dioxide is an inorganic substance, thus a PBT and vPvB assessment is not required.
 - **12.6 Other adverse effects**
-
-

13. DISPOSAL CONSIDERATIONS

• 13.1 Waste treatment methods

Product:	No hazardous waste according to European Directive 2000/5322/EC. Place in an appropriate disposal facility in compliance with local and national regulations.
Contaminated packaging:	Containers that cannot be cleaned must be treated as waste and disposed of in an approved industrial incineration facility. The empty and clean containers may be reused in conformity with regulations.
Cleanser:	water

14. TRANSPORT INFORMATION

• 14.1 UN number

-

• 14.2 UN proper shipping name

-

• 14.3 Transport hazard class(es)

-

• 14.4 Packing group

-

• 14.5 Environmental hazards

-

• 14.6 Special precautions for user

The product is not classified as a hazardous material according to the ADR/RID, IMDG, IATA on the transport of dangerous or hazardous goods.

• 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

-

15. REGULATORY INFORMATION

• 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Inhalation of TiO₂ dust: In February 2006 IARC concluded, "There is inadequate evidence in humans for the carcinogenicity of titanium dioxide." Based on rat inhalation studies IARC concluded that there is, "sufficient evidence in experimental animals for the carcinogenicity of titanium dioxide," IARC's overall evaluation was that, "Titanium dioxide is possibly carcinogenic to humans (Group 2B)".

This conclusion was based on IARC's guidelines which require such a classification if two or more independent studies in one species carried out of different times or in different laboratories or under different protocols show evidence of tumours .

• National Regulations

-

• 15.2 Chemical safety assessment

The substance has undergone a safety assessment.

16. OTHER INFORMATION

- **Changes against last version**

Adaption to directive 453/2010/EC

- **Hazard information which is referred to in section 2 or 3**

According to Regulation (EC) No 1272/2008:

-

According to Directive (EC) 67/548/EWG:

-

(2011-TI-001-EN)

The data given here are based on current knowledge and experience. The purpose of this Material Safety Data Sheet is to describe the product in terms of its safety requirements. The data do not signify any warranty with regard to the product's properties.
